Background Information

Inner Surge's unique blend of aggressive styling and thought-provoking message makes them the exception to the rule. The re-issue of their critically acclaimed "Matrika" brings you a 12 track full length CD ranging from metal, industrial to prog rock, punk and alternative styles. "Matrika" is also somewhat of a concept album, with a strong message delivered over pounding beats and driving guitars.

Press

"A great demonstration of "metal meets rock" style music." –BILLAWEEED.COM

"Metal/punk doesn't get any sweeter than Calgary's Inner Surge." – PARTYINKINGSTON.COM

"Matrika is a tremendously impressive disc that not only blends punk, metal and electronic sounds, there are wisps of Eastern influence and jazz too, very interesting. All in all, Inner Surge has a palpable industrial-jazz rock feel on Matrika, which is something entirely new for the genre." – HUSSIESKUNK.COM

"Matrika is really an album that is quite difficult to describe, since now matter how you try to twist and turn it, it feels like you never get a grip on the music. Well written and well performed songs, good and original sound, well, what more can you demand?" – METAL-ONLY.COM
