### Focus Tracks

[1] The Monroe Doctrine, [3] Maggots & Liars, [7] Crossing the Line, [8] Haliburton Piggies

### Background Information

Inner Surge's unique blend of aggressive styling and thought-provoking message makes them the exception to the rule. As a follow-up to their critically acclaimed 'Signals Screaming', the groundbreaking new CD 'An Offering' is a 13 track onslaught of provocative, uncensored and original heavy music.

Inner Surge was featured in Garry Sharpe-Young's book 'New Wave of American Heavy Metal' alongside Dillinger Escape Plan and Mastodon. Additionally the band will be featured on the official movie soundtrack for the feature films 'Cabras'. The director, Fredy Polania, describes Inner Surge as 'the next Rage against the Machine'.

### Press

'They sing a violent song indeed! 5 out of 5!'  
- [Hardrockandmetal.com](http://Hardrockandmetal.com)

'If you're into heavy music, do yourself a favour and give this album a listen. There is plenty to pay attention to and honestly, you don't want to miss a word.'  
- [Offthedia.ca](http://Offthedia.ca)

'A welcome departure from the stale modern scene that thrives more on sounding like established bands than creating something fresh and original. These guys definitely aren't getting enough credit.'  
- [SLUG Magazine](http://SLUG Magazine)

'Inner Surge will both captivate the listener and bludgeon him with intense, well written audio assaults. Possibly among one of the best imports that Canada has to offer.'
